

Welcome to Council Connect

The **online collaboration platform for Australia's largest network of local councils leading the way to a thriving, zero emissions future.**

With over 150 councils in the Cities Power Partnership (CPP), Council Connect gives you the power to instantly connect with the CPP's community of local governments and supercharge your climate and energy ambitions.

Councils can share the latest information on their plans and projects including learnings and best practise case studies. Councils can also create opportunities to work together to accelerate impact. The platform is open to all council staff and elected officials.

Your quick guide to Council Connect:

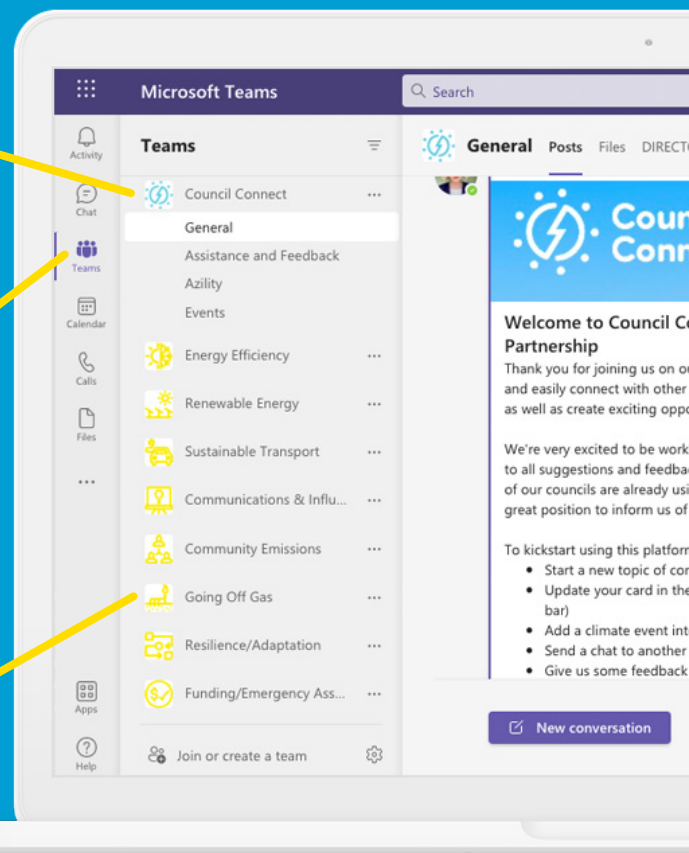

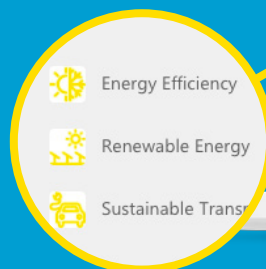

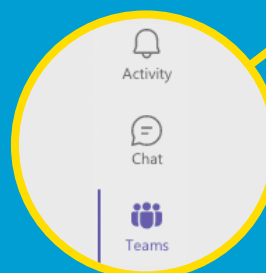

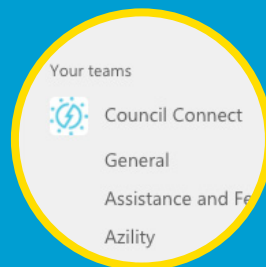

Hosted by Microsoft Teams, Council Connect is made up of Teams, Channels, and other functions such as Chat and Activity.

The **Council Connect Home Team** is identified by a blue icon and in the different channels is where you can:

- > Have general conversations with other member councils
- > Chat with the Cities Power Partnership team to find support or provide feedback
- > Add your climate events to the Council Connect **Calendar**
- > Update your details in the Council Connect **Directory**
- > Find information on the energy reporting platform **Azility**

You can also **chat** directly with other users, catch up on all the latest **activity** and find all the **files** from Council Connect in one easy place.

Discussion areas are identified by yellow icons and are where you can browse the various topics, post a new question or comment, add to a conversation or answer a question.

For any technical difficulties, questions or to provide feedback, please email us at cpp@climatecouncil.org.au
